
the albany consort ...

Jonathan Salzedo writes ...

On concert programs, musicians often acknowledge all the teachers that have influenced them. Preparation for this concert has given me the chance to look back over the last 25 years, encapsulated in two big scrapbooks full of old programs. Reading the names of the many friends who have taken part in our productions over the years made me realize what an important influence fellow musicians represent. So I decided to list here as my influences not my teachers,

but a rather large peer group of fellow musicians who have inspired and encouraged me and supported our activities. I am sure I have missed a few, for which I apologise. It was also hard to determine precisely where the Albany Consort ends. Some of those named here took part in other groups we have helped to organize or launch, including Douce Memoire, I Concertisti, Tea-Time Bach, and many unnamed groups. It is my hope that after another 25 years the list will be at least twice as long as it is now.
